

TECHNICAL REFERENCE SHEET

Zombie Packing Machine (AR-Zombie)

Complete technical specifications and installation reference.

MACHINE DIAGRAM
Placeholder

SPECIFICATION	VALUE
Start / Stop	Soft start and soft stop
Machine Type	Automatic multi-purpose packing machine
Size of Pack (L x W x H)	Dynamic according to product sample
Machine Dimensions (L x W x H)	Custom industrial frame configuration
Machine Weight	Heavy-duty industrial construction
Film Reel (Outer / Core Diameter)	Standard industrial packaging film reel
Conveyor Length	Configured according to feeding requirement
Machine Capacity	Dynamic according to product and film
Electric Motor	Inverter-controlled drive system
Machine Load	Configured according to machine duty
Standard Equipment	Photo electric eye, inverter and precision sealing unit
Packing Material	Food grade packaging film
Voltage & Frequency	As per factory electrical requirement
Packing Weight	Small portion and confectionery pack formats
Sealing Type	Multi-purpose heat sealing
Usage / Application	Toffee, candy, confectionery pouches and small portion packs

INSTALLATION REQUIREMENTS

Stable floor level and operator access around the machine.

Electrical connection according to voltage and load specification.

Clean production environment with suitable packaging film storage.

Trained operator for safe production and routine inspection.

OPERATING CONDITIONS

Machine speed depends on product size, film type and feeding stability.

Final configuration should be confirmed with product samples.

Preventive maintenance and spare parts support available.
